Boeing 737 800 Aircraft Maintenance

The Boeing 737 MAX passenger airliner was grounded worldwide between March 2019 and December 2020 – longer in many jurisdictions – after 346 people died in two crashes, Lion Air Flight 610 on October 29, 2018 and Ethiopian Airlines Flight 302 on March 10, 2019. The FAA resisted grounding the aircraft until March 13, when it received evidence of accident similarities.

Boeing 737 MAX groundings - Wikipedia

The Boeing 737 Classic are narrow-body airliners produced by Boeing Commercial Airplanes, the second generation of the original Boeing 737-100/-200. Development began in 1979 and the first variant, the 737-300, first flew in February 1984 and entered service in December of that year. The stretched 737-400 first flew in February 1988 and entered service later that year.

Boeing 737 Classic - Wikipedia

There was increasing demand for transports in its category, but the 737 faced heavy competition from the Douglas DC-9 and the British Aircraft Corp. BAC 1-11. To save production time, and get the plane on the market as soon as possible, Boeing gave the 737 the same upper lobe fuselage as the 707 and 727 so that the same upper deck cargo pallets ...

Boeing: Historical Snapshot: 737 Commercial Transport

Because of the 737's popularity with airlines everywhere around the world, integrating the new 737 MAX is an easy proposition. As you build your 737 MAX fleet, millions of dollars will be saved because of its commonality with the Next-Generation 737, ease of maintenance, wide availability of 737 pilots, and the global infrastructure that supports the aircraft in operation.

Boeing: 737 MAX By Design

The airline first placed its bets on the MAX in 2013, ordering 75 new aircraft to grow its existing all-737-800 fleet. This order was later topped up by a substantial 175 aircraft in 2017, cementing the long-term future of the MAX in the flydubai fleet.

Wow: flydubai Has 237 Boeing 737 MAX Aircraft On Order ...

Taking on a new Boeing 737 MAX would cost the airline more than a mid-life, used Boeing 737-800. While that would be partially offset by lower fuel and maintenance costs for the MAX compared to the 737-800, the price of a new aircraft is a little too high for the airline right now.
