Equine Reproduction And Stud Medicine

Developments in equine reproduction have meant that new information needs to be understood by practising and student veterinarians and breeders. This updated edition of the bestselling Self-Assessment Color Review includes 200 all-new color illustrated cases in random order, as they would be presented in practice.

Equine Reproduction and Stud Medicine: Self-Assessment ...

Involvement with equine reproduction is very common for the veterinarian in practice, and there is enormous demand for continuing education, particularly in the light of recent changes in science and practice, such as the routine use of ultrasound, improved standards of foal care, and the importance of artificial insemination.

Equine Stud Farm Medicine & Surgery - 1st Edition

Research funded by the Thoroughbred Breeders' Association has achieved a significant breakthrough in discovering a major cause for the early loss of pregnancy in equine mares. A study led by Dr Mandi de Mestre, head of the equine pregnancy laboratory at the Royal Veterinary College, revealed that a chromosomal defect known as aneuploidy occurred in a substantial number of the cases of early pregnancy loss examined.

Stud Medicine - BEVA

Equine reproduction in the UK has received a boost in that noted specialist Dr. Jonathan Pycok is now BEVA (British Equine Veterinary Association) president. Dr. Pycok is encouraging increased research and presentation of the subject, and an enjoyable first step is the Equine Veterinary Journal's release of 10 papers viewable on-line by all.
