Gunboat Philadelphia Model Plans

These flat-bottomed boats were around 53 ft. long with a 15-1/2 ft. beam and a shallow 2 ft. draft. Armament consisted of three carriage guns, one 12-pounder, two 9-pounders and eight swivel guns. Although equipped with a square sail and topsail on one mast, the gondola's navigability depended on its sweeps or oars.

The Gunboat Philadelphia exhibition has been reinterpreted and updated to include its recovery in 1935, a history of its display at Lake Champlain as well as early preservation and acquisition by the museum. This exhibition includes historical video footage of the raising of the Philadelphia from Lake Champlain accompanied by an interpretive cart that provides hands-on

Gunboat Philadelphia | National Museum of American History

The Gunboat Philadelphia is the oldest surviving American fighting vessel. Built in 1776, it was sunk in Lake Champlain during a naval battle with the British in the same year. The Continental Congress authorized the building of this 54 foot, 29-ton gunboat and eight other similar vessels for the defense of the Champlain Valley - the northern frontier of the colonies considered the key to the
