Answer: 'You walk in a room with a match' riddle ...

The spark to light the gas on the cooker is giving shocks and so the only way to avoid them is to light a match and I am scared of doing this. I think it's because when I was little a friend had got matches and set fire to the house. It was lucky everyone lived. However, I am 19 years old and I don't want to be stuck with this fear forever.

With Matching questions, students pair items in one column to items in another column. The number of items in each column doesn't have to be equal because you can reuse answers and add unmatched answer choices. Unmatched answer choices are distractors that don't match any item and increase the question's difficulty.
