Programming: Principles and Practice Using C++: Amazon.in ...

Programming is learned by writing programs. In this, programming is similar to other endeavors with a practical component. You cannot learn to swim, to play a musical instrument, or to drive a car just from reading a book — you must practice. Nor can you learn to program without reading and writing lots of code.

Programming: Principles and Practice Using C++: Stroustrup ...

As you know, the purpose of the programme is to compute simple arithmetic expressions. The expressions are made of numbers, arithmetic operators (sum, subtraction, multiplication, division, remainder), and parentheses to group compounds and override the usual operator precedences.
