SECRETS is still an awesome series for looking deeper into Vader and his actions from Episode IV to V. He's still incredibly interesting and portrayed properly, his supporting cast has improved (Triple-Zero and BT are hoots for their dark sense of humor), great art, and complex story telling.

Highly recommended series for fans of the man in black himself; Darth Vader. This series is fantastic and really captures the character in such an epic light. This volume focuses on a war on a planet recently brought into the Imperial fold, introducing new characters and a great setting.

It's everything you would hope for from a Darth Vader story—it's visually gorgeous, fills in gaps between the movies, and Vader remains the sort of utterly amoral (with
