Th Combat Engineer Battalion Corps

An Engineer Combat Battalion was a designation for a battalion-strength combat engineering unit in the U.S. Army, most prevalent during World War II. They are a component of the United States Army Corps of Engineers. Also known as "Combat Engineer Battalions", they were typically divided into four companies: A, B, C, and Headquarters and Service. Best known for pontoon bridge construction and clearing hazards in amphibious landings, their duties also included serving as sappers deploying and dea

Normandy - The Technical Services : Corps of Engineers

I have recently learned that the 160th Engineer Combat Battalion was formed at Fort Meade, Maryland on April 27, 1943. The full battalion consisted of 638 men. If the first anniversary celebration was held on April 27, 1944 then it would have been held at Camp Rucker, Alabama. The first picture is of eleven men taken at that celebration.
